MONTHLY PERFORMANCE REPORT

[CLIENT NAME]

[REPORTING MONTH] · compared with [COMPARISON MONTH]

RETURN ON AD SPEND

[. x]

against a breakeven of [. x]

AD SPEND	REVENUE	PURCHASES	AVERAGE ORDER
[ ]	[ ]	[ ]	[ ]

Every number in this report traces back to a daily row pulled directly from Meta's and TikTok's own reporting APIs. There is no manual entry step, and nothing is estimated.

PREPARED BY

[YOUR AGENCY]

REPORTING WINDOW

[REPORTING MONTH]

THE ONLY NUMBER THAT MATTERS

Breakeven ROAS for this business is [. x]. Below that line, every sale loses money before you have paid for ads. Everything in this report is read against that line, not against an industry average.

PAGE TWO

Performance at a glance

Combined results against last period

	META	TIKTOK	COMBINED	LAST MONTH
Ad spend	[ ]	[ ]	[ ]	[ ]
Purchases	[ ]	[ ]	[ ]	[ ]
Cost per purchase	[ ]	[ ]	[ ]	[ ]
Revenue	**[ ]**	**[ ]**	**[ ]**	**[ ]**
ROAS	[ ]	[ ]	[ ]	[ ]
Average order	[ ]	[ ]	[ ]	[ ]

ROAS of [. x] against a breakeven of [. x] — [above / below] breakeven.

Where the budget went

CHANNEL	SPEND	ROAS	SHARE OF BUDGET	
Meta	[ ]	[ ]		[ ]
TikTok	[ ]	[ ]		[ ]

Efficiency

CPM	**[ ]**	cost of 1,000 impressions
Click-through rate	**[ ]**	how well the creative earns a click
Frequency	**[.]**	average times each person saw you
Click-to-purchase	**[ ]**	how well the site converted paid clicks
Revenue per 1,000 impressions	**[ ]**	end-to-end media efficiency

PAGE THREE

The funnel, step by step

Where people drop out between seeing an ad and buying something. The weakest step is the one to fix first — everything upstream of it is being wasted.

Step	Volume	Conversion from the step above
Impressions	[ ]	[ ]
Link clicks	[ ]	[ ]
Add to cart	[ ]	[ ]
Checkout started	[ ]	[ ]
Purchases	[ ]	[ ]

Weakest step this month: [ ] at [ ]%, against a target of [ ]%. A 20% relative improvement at that single step, at the same spend, is worth roughly [ ] EGP in additional revenue.

Platform detail

	META	TIKTOK	COMBINED
Spend	[ ]	[ ]	[ ]
Impressions	[ ]	[ ]	[ ]
CTR	[ ]	[ ]	[ ]
CPM	[ ]	[ ]	[ ]

PAGE FIVE

What we did, and what happens next

What we changed this month

[Three specific things you did. "Launched four UGC concepts and cut the two weakest ad sets" — not "optimised creative" and not "tested some things".]

What we learned

[One insight the data proved this month. This is the part the client is actually paying for.]

What we are doing next month

[Two or three concrete moves, each tied to a number in this report. Name the number.]

What the numbers don't show

[Stockouts, shipping delays, a price change, a competitor entering. Say it before the client finds it.]

What we need from you

[One clear ask. New imagery, a price decision, a stock fix. Give them a job and they become a partner.]

What the numbers mean

ROAS	Revenue divided by ad spend. A 3.0x return means each unit spent brought back 3.
Breakeven ROAS	The point where ads pay for themselves exactly, after product cost, shipping, fees and returns. Below it, every sale loses money.
Cost per purchase	Ad spend divided by orders. Only meaningful next to average order value and breakeven.
Attribution window	How long after a click the platform still credits itself with a sale. Kept fixed month to month so comparisons stay honest.
Revenue	Orders the platforms reported, not your bank statement. We reconcile the two each quarter.
